

Speech

Grade Level: 9, 10, 11, 12

Credit: 0.5

Prerequisite: None

Speech is a half credit course designed to teach students how to effectively listen to and finally give their own speech. Students will listen to and critique the speech-giving skills of three speakers, one of which must be physically attended and viewed by the student. They will also learn how to lead a group discussion and maintain order and focus among the group. Nonverbal communication is also covered in the course, so that students may learn that not all communication needs to be spoken, and that some things can be conveyed in a gesture. The final project is a 3-5 minute speech prepared and presented by the student in audio or video format.

Speech Lessons

Teacher Message

Lesson 1: Speaker Evaluation 1

Lesson 2: Speaker Evaluation 2
