

ECONOMICS

Grade Level: 9, 10, 11, 12

Credit: 0.5

Prerequisite: None

In this course, students study and compare the different economic systems of the world, as well as take an in-depth look at how the U.S. economy works. Some of the topics covered include the law of supply and demand, competition models, international trade, government spending, commercial banks and the federal reserve system, income inequality, unemployment and poverty, labor unions and specialization of labor, budgets and consumer assistance, and more. Students will explore these topics through online research assignments, hands-on interactive applications, and traditional lessons.
